Time waits for nobody.

Yet as time goes by, seeds are sown and have time to sprout and blossom. Spoudazo have a few seeds that turned into blossoms that we want to share with you!

GET REAL DEVELOPMENT:

Marry Motsoeneng who was one of the orphan girls who attended the Get Real Workshop during 2012 recently contacted us to share her testimony of what the Get Real Workshop meant to her. She was one of twenty orphaned girls attended the Workshop where they were taught about defining their dreams, identifying their strengths and passion, as well as how to endure on the journey in making their dreams come true.

Testimonial of Marry: "Hey everybody. My name is Marry Motsoeneng from Bethlehem. I had a very beautiful encounter with the Get Real Workshop in May 2012. I had discovered what is important in life which is to know your drive and what it is that you want to achieve. I got motivated by the invited speakers. After all the sessions, I had the courage to be able to become a motivator in the community. As a result, I am living one of my dreams which is to be a role-model to the youth in my community. Recently the Executive Mayor of Thabo Mofutsanyane invited me to speak to a group of learners. I have obtained my diploma in Social work and next year I will be doing my degree. My future dream is to finish my Honours degree as well. I am grateful for what Spoudazo did through the Get Real programme."

BEUDENE DAYCARE FOR DISABLED

Beudene also has beautiful testimonies to share! Come and join them on 13 July 2017 at 7-8:30 PM when they will be sharing HOPE through a testimony by the Viljoen family from America, founders of Brain Child Fund, who have four children, three of which have Special Needs. These children defied the prognosis of the medical world. They will be sharing a message of hope with other South African Special Needs Families.

EDUCATION AND ICT INTEGRATION

During the previous newsletter, Spoudazo mentioned the unique opportunity for companies, specifically in the Information Communications Technology related industry, to channel their Socio Economic Development (SED) funding towards a new project to support under-qualified teachers in the education sector.

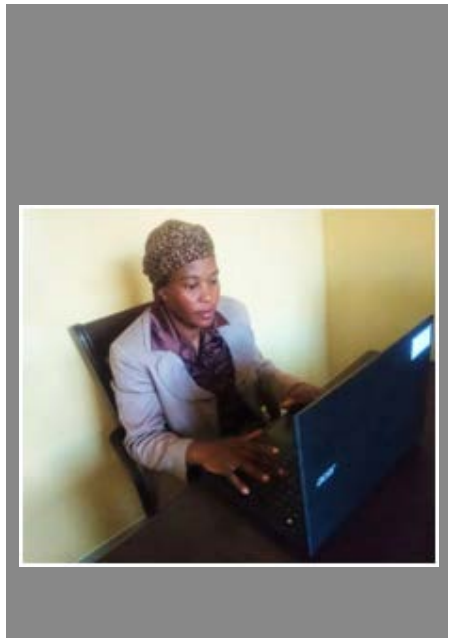

Sizabantu Piping Systems Central (Pty) Ltd has made it possible to purchase laptops to two teachers to study the online Advanced Certificates in Teaching programme.

We have received the following testimonial from Elizabeth Magakwe who was one of these teachers. "I have been truly blessed to have been given an opportunity to study ACT online and being awarded with a laptop to complete the programme was such a wonderful blessing. It is convenient and it doesn't even feel like I'm missing out on any classes or seminars because the online facilitators are so hands-on and encouraging. It has sharpened my computer skills in such a brief time. I am excited to see what the future holds. Thank you very much for making this happen for me."

Please register at www.brainchildfund.org at Events or contact Jaco Spies at 072 384 3089/ jaco@drumability.co.za. Free Admission.

If you want to contribute in any way to ensure that we always have seeds in the soil when it comes to helping others, we would appreciate your support. Contact Elbie Louw at elbielouw@spoudazo.co.za for more information.
